REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the closest prior art made of record fails to teach or suggest a method for retrieving stored images comprising: displaying one or more images, receiving input from a user indicative of a part of the displayed image, determining measure of interest for a plurality of non-displayed images specified by the metadata, which comprises at least one entry specifying a part of the respective image, another stored image and a measure of the degree of similarity between the specified part and the specified other stored image, of the displayed image as a function of stored measures of the degree of similarity and the relationship between the user input and the corresponding part specified, and selecting further images to display on the basis of the measures of interest.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Martins disclose a Passive Gaze-Driven Browsing, Miller et al. disclose a Method and Computer Program Product for Determining an Area of Importance in an Image Using Eye Monitoring Information, and Fredlund disclose an

Imaging Method and System for Determining an Area of Importance in an Archival Image.
